

SENATOR BOURKE COCKRAN DIES SUDDENLY

SUFFERS STROKE OF APOPLEXY THURSDAY PASSING SOON AWAY

Made Vigorous Speech in Congress Wednesday Night—Later Celebrated 69th Anniversary with Party—Felt in Best of Health—Was Senate's Most Eloquent Speaker

WASHINGTON, March 1.—Death today stilled the voice of N. Bourke Cockran, conceded to have been one of the most eloquent senators who ever spoke from the floor of congress.

The famous speaker, a Democratic representative from New York, who had matched his powers with many of the greatest of his time, died this morning from a stroke of apoplexy. Last night he delivered a vigorous denunciation of the farm credits legislation pending in the house and later he celebrated his 69th anniversary with an old fashioned birthday party likened by those who attended to the gatherings of childhood days.

Apparently in the best of health he entered into the spirit of the occasion with all his heart. He repeatedly remarked to those about him that he never had felt better.

After his guests had departed and while he was chatting with Mrs. Cockran he was stricken with a headache and soon lapsed into unconsciousness. Last rites of the Catholic church were administered shortly before he died.

STATEMENTS TO JURY TO BE MADE IN HERRIN TRIAL

Announcement Made Following Completion of Jury

(By The Associated Press) MARION, Ill., March 1.—The opening statements to the jury in the second Herrin mine riot trial will be made tomorrow morning following the completion of the jury today attorneys in the case announced tonight.

Six men are on trial charged with the murder of Antonia Mulikovich of Erie, Pa., one of the twenty five persons slain in the riots last June.

Attorneys for both the state and defense tonight expressed themselves as well satisfied with the jury which contains two union miners.

The jury was completed in thirteen days of actual examination of witnesses.

Either State's Attorney Delos Duty or C. W. Middlekauff, assistant attorney general, will make the initial argument for the prosecution while A. W. Kerr, chief counsel for the Illinois Miners' Union, is expected to speak for the defense.

It was announced that the presentation of evidence will not begin until next Monday as court will be adjourned over the weekend. Witnesses have been ordered to report Monday.

COAL COMMISSION ASKED TO IGNORE UNION STATEMENTS

Claim Consideration Would Prevent Square Deal

(By The Associated Press) WASHINGTON, March 1.—The federal coal commission was urged today by Walter Gordon Merritt, counsel for the general policies committee of anthracite operators to place no dependence in recent statements filed with the commission by the United Mine Workers in reference to wages, prices, profits and production costs in the anthracite industry.

In a communication to the commission Mr. Merritt declared that "we regret these statements are not calculated to promote a fair understanding and a square deal between the parties involved or between them and the public."

"The circumstances show," he said, "that they are prepared not for the use or information of the commission but for the purpose of disseminating sham and misleading arguments and conclusions thru the newspapers."

"As you are aware the producers of anthracite in co-operation with the commission are now preparing accurate data with respect to wages, cost of production, profits, etc. This data will be the most complete and comprehensive ever collected on the subject and will include details as well as conclusions."

policies committee of the anthracite industry is pledged to a full disclosure of these facts and so far as we know none are being withheld. In due course this information will be compiled, examined and weighed by the commission and we hope made public."

"Statements on these matters before the data are obtainable are obviously unworthy of consideration that they cannot be inspired by a spirit of helpfulness."

"The real motive behind this propaganda is shown by the constant assertion in these statements that the operators are paying inadequate wages to maintain inordinate profits."

COMPTROLLERSHIP IS LOST BY COHEN

(By The Associated Press) WASHINGTON, March 1.—The contested nomination of Walter L. Cohen, Republican leader of Louisiana to be customs controller at New Orleans, was defeated tonight by the senate which rejected the president's nomination.

The vote on the confirmation of Cohen was 27 to 35, it was reported with a few Republicans joining the bulk of the Democrats in defeating the nomination.

Senators Ransdell and Broussard, Louisiana, Democrats, led the fight against Cohen, who for years has been Republican state chairman of Louisiana and prominent figure among southern delegates at Republican national conventions. It is understood that he was declared "personally objectionable" to Senator Ransdell.

This concern over the commissioner's safety however, was not shared by the rules committee which called for the rules committee on February 23 Saturday evening on hour and date when mist members are absent from the capital.

COMMITTEES WORK ON FARM CREDITS BILL

(By The Associated Press) WASHINGTON, D. C., March 1.—Senate and house conferees began work today on the agricultural credits bill passed today by the house. Two meetings were held and it was said prospects were bright for an early agreement.

The bill includes portions of two senate bills—the Capner and Loure Anderson measures—both of which went thru the senate by overwhelming majorities and before the conferees began work on the bill. The conferees expressed the opinion that quick action would be had.

House opponents of the measure indicated today they did not base high hopes on material changes in the conference.

POLYGAMY CHARGED AGAINST OLD MAN Grand Rapids, Mich., March 1.—A warrant charging polygamy was issued here today for the arrest of J. Frank Fetterhoff, 77 years old and said to be a former lay preacher in a local Methodist church. Mrs. Ida Vanlee Fetterhoff, the complainant charged Fetterhoff was married to two other women, one of them Harriet P. Chase, residing in Grand Rapids and the other Harriet B. Bower, of Wilcoxville. Police reported tonight they had not learned of Fetterhoff's whereabouts. He is believed by Mrs. Vanlee to be at Wolcottville, Ind.

APPOINTED CHIEF OF ANIMAL HUSBANDRY Washington, March 1.—Professor Leon G. Cole of the University of Wisconsin, faculty, has been appointed chief of the animal husbandry division of the department of agriculture effective July 1.

BREAD PRICE INCREASED. Paris, March 1.—An increase of one son in the price of bread would bring the price to one franc 50 centimes per kilo was reported today by the prefect as being justified by the price of flour reported by the bread and flour commission.

RESOLUTIONS ARE ADOPTED BY N. E. A. SUPERINTENDENTS CLEVELAND, O., March 1.—The department of superintendence of the National Education Association closed a five days' convention with a final business session tonight at which the delegates heard and adopted the report of the resolutions committee and listened to addresses by four speakers. Thousands of the delegates left for home tonight. The resolutions committee in part follows:

President Harding, governors and mayors were commended for issuing proclamations during education week last December. Gratitude was expressed for large financial support by legislatures and a continuance was urged along these lines to the end that there may be an American school good enough for every American child.

Endorsement was given to the intention of congress to make the school system of Washington the model school system of the country. To this was added a request for immediate passage of the teachers salary bill pending before congress.

Allegiance in the Sterling-Townier bill is reaffirmed. Necessity of a secretary of education in the president's cabinet and federal aid in removing illiteracy in Americanizing the foreign born, preparing teachers, developing adequate programs of physical and health education and equalization of education opportunities is urged.

The movement to have professionally trained county superintendents to give rural children better education is endorsed. To this is added a recommendation that the burden of raising funds in state and nation be justly and equitably distributed between the stronger and weaker taxing units.

Speakers tonight were J. H. Benley, superintendent of schools Duluth, Minn.; Z. E. Scott, superintendent of schools, Louisville, Ky., and Thomas H. Harris, state superintendent of public instruction, Baton Rouge, La., who spoke on "school organization," and Edward A. Steiner, Grinnell, Iowa, on "immigrant education."

Abolishment of summer vacations by splitting the school year into four terms of three months each, with two weeks vacation period around Christmas and the Fourth of July, was urged by H. C. Wexler, superintendent of schools of Nashville, Tenn.

The summer vacation is an archaic idea which was in good form when agriculture was the main occupation and required the assistance of children in harvesting, he said.

WILL MODERNIZE U. S. BATTLESHIPS WASHINGTON, March 1.—Appropriations aggregating \$29,950,000 for modernization of battleships and reimbursement of contractors as a result of the naval scrapping program under the Washington arms conference treaty were approved today by the senate. The house previously had approved the items.

Included in the naval appropriations contained in the deficiency bill is \$6,500,000 for making change in thirteen battleships so as to increase the range of their guns.

SENATE IMMIGRATION REPORTS Washington, March 1.—Urging enactment of the Dillingham resolution to permit restricted immigration of otherwise inadmissible aliens into Hawaii to relieve the present labor shortage the senate immigration committee in a report presented today declared American control of Hawaii and of the center of the Pacific ocean to be endangered by the Japanese.

ASWELL BILL GOES TO THE SENATE Washington, March 1.—The house today passed and sent to the senate the Aswell bill which would establish standards for naval stores including rosin and turpentine and place in the hands of the secretary of agriculture the authority to grade products in interstate commerce.

SIX RACE HORSES BURN AT ONEIDA Oneida, N. Y., March 1.—Fire today swept the racing stables of H. M. Stanford, proprietor of the Hotel Oneida. Six horses were burned to death including Hilky Mac, winner of many races in the east.

Public Alone Can Rescue Old C. P.

(By The Associated Press) CHICAGO, March 1.—Unless people along the line of the Chicago, Peoria & St. Louis railroad come to the rescue, they will "wake up" some morning to find no trains running. H. A. Touhy, traffic manager of the Springfield Chamber of Commerce declared here today. He was here to confer with the Illinois Manufacturers' association officials relative to a plan to save some portions of the road from abandonment which has been asked by the first mortgage bond holders of the interstate commerce commission.

Mr. Touhy said sections of the line can be bought for almost junk value and operated even if the entire 250 mile line cannot be saved.

Part May be Saved. The twenty mile section between Springfield and Petersburg and the twenty mile section between Springfield and Waverly will not likely be abandoned. Mr. Touhy said, because of the rich territory they traverse. Similarly he said the eight miles of the road between Pekin and Manito could be maintained in operation profitably and that portion of the line between Grafton, running thru Alton to East St. Louis also operated thru congested and profitable territory.

Another 15 mile section, between Manito and Havana probably could be bought for \$110,000 by the farmers and shippers along the line but it is likely to be torn up unless quick action is taken, he said. The forty mile stretch from Havana to Jacksonville and the 25 miles of track between Havana and Petersburg, both operating thru rich agricultural territory also are in danger of being abandoned Mr. Touhy asserted.

CONSIDERING PAY FOR U. S. TROOPS SO LONG ON RHINE

America's Portion Explains to European Financial Representatives

(By The Associated Press) PARIS, March 1.—The position of the American government regarding its claim for reimbursement of the cost of occupation of the Rhine was explained by the Eliot Wadsworth, assistant Secretary of the Treasury at his first conference with financial representatives of France, Great Britain and Italy here today. The American view already had been fully set forth in various notes to the allied government prior to November 22, last, when the allied ambassadors' council, finding it difficult to conduct the four-cornered correspondence suggested the present conference.

The delegates today decided to defer further consideration until next Monday to afford them time to think matters over and consult their various governments. It was also decided to observe secrecy except for the issuance of official communications to the public.

The costs of maintaining the American military forces on the Rhine were estimated in Washington on February 19 as approximately \$265,000,000.

ASK PROTECTION FOR COMMISSIONER HAYNES

(By The Associated Press) LANSING, Mich., March 1.—The head of the Michigan state police department is directed to provide protection for federal prohibition commissioner Haynes when he visits Lansing to address a joint session of the legislature March 15, by a resolution introduced today by Representative Charles Bartlett of Detroit. The fear that Mr. Haynes might be made the target of some of the "thousands of desperate criminals" engaged in "bootlegging" in Michigan is expressed in the resolution.

This concern over the commissioner's safety however, was not shared by the rules committee which called for the rules committee on February 23 Saturday evening on hour and date when mist members are absent from the capital.

FAMOUS SEAMAN EXPIRES SUDDENLY (By The Associated Press) NEW YORK, March 1.—Captain Arthur Todd Hudgins, widely known seaman who piloted the first passenger steamer thru the Panama canal at the invitation of Major General George W. Goethals, died today of heart disease. Captain Hudgins was a lineal descendant of Sir Francis Drake, the first Englishman to circumnavigate the globe.

Opening of the hearing was deferred on account of the inability of the commission to conclude the taking of evidence in another hearing at which attorneys representing the Pike Rapids and the Little Falls company of Little Falls, Minn., presented arguments in connection with their respective applications for permission to develop power at Pike Rapids.

HEARING TODAY (By The Associated Press) WASHINGTON, March 1.—The hearing schedules for today before the federal water power commission on proposals to develop power at the high dam project near the city of St. Paul and Minneapolis was postponed until tomorrow.

GERMAN GOVERNMENT FEARS AN UPRISING OF ITS POPULATION

Claims Continued Reprisals by French May Lead People to Acts Which German Impaired Official Organization Cannot Check

—French Control Many Ruhr Operations

(By The Associated Press)

WASHINGTON, March 1.—The German embassy, in a formal statement issued late today, declared that should the population in the Ruhr, "already severely tried, allow itself to be led to acts of desperation, the German government, owing to the paralysis by the French of the German official apparatus in the Ruhr, will not be in a position to guarantee the maintenance of peace and order in the occupied territory."

An atmosphere of high tension has gradually been created throughout the occupied zone, it was stated, which "causes the possibility to be feared this atmosphere may in the near future lead to explanations."

The text of the statement follows:

"Owing to the latest events in the Ruhr territory, especially owing to the ever more numerous and brutal expulsions, drastic sentences by court martial, pillages, and ill-treatments in the streets, and thru the oppressions of entire towns such as Recklinghausen, Gelsenkirchen and Bochum, an atmosphere of high tension has gradually been created in the entire occupied territory which causes the possibility to be feared that this atmosphere may in the future lead to explanations."

"The German government still maintains a policy of mere passive resistance as hitherto applied, and in this policy is backed by the unanimous support of the officials and the entire population."

"Should however, the population already severely tried, let itself be led to acts of desperation, the German government owing to the paralysis by the French of the German official apparatus in the Ruhr will not be in a position to guarantee the maintenance of peace and order in the occupied territory."

"How far the German administrative and economic apparatus in occupied territory has been disorganized by the French is shown by the following:

"By order of the commander of the 128th French division, German security police of Essen urban and rural district has been disbanded. Disarming of the German security police also reported from other places, so that the Ruhr is gradually deprived of all its organs of control which hitherto provided for the safety and peace of the population."

Many are expelled. "The expulsion on the following persons took place up to the present time:

"The governor of the Ruhr province, all presidents of administrative districts, with one exception the presidents of three main postal districts, of three railway districts, of two finance boards, of two courts of appeal, forty-nine lord mayors, thirty-one postal directors, nine customs directors, six districts of the Reichsbank, four editors of newspapers, two secretaries of trade unions; thirteen directors-general of mining companies. Total 552, besides that approximately 2,000 members of families."

In advocating the defeat of the Millikin bill Senator Johnson of Duplin, lauded the Ku Klux Klan as an organization standing for Protestant Americanism, free press, white supremacy and the support of all law and declared that the enemies of the Klan are the Knights of Columbus, backed by The Associated Press and many newspapers.

SENATORS ADVOCATING PASSAGE of the Millikin bill which had been passed by the house, declared it would show that the assembly did not intend to permit the growth of an "invisible empire" to uncontrollable strength without its membership being known and argued that the Armistice bill was an innocuous measure.

KENNETH SMITH WON CORN SHOW TROPHY

Great Interest Shown In High School Corn Exhibit—C. A. Rowe Judged Entries and Made Address.

Kenneth Smith, of the High school won a handsome silver trophy cup yesterday afternoon by his exhibit of yellow corn at the corn show held by the Agricultural Department of the High school yesterday. C. A. Rowe, widely known as a seed corn judge, gave the decisions in the show. The show was put on by the agricultural department of the High school and was held in the rooms of the Lukeman garage. Any boy registered in the department was privileged to enter. Mr. Rowe spoke at the exhibit, taking as his subject, "Corn Production From the Seed Standpoint." He spoke briefly on the history of corn study and told the boys of the respective merits

of the old grading card and the new utility card. The trophy cup will have the winner's name engraved on it but will remain the property of the school. The money to buy the cup and furnish the other prizes was donated by members of the chamber of commerce. So generous were the givers that enough money was secured to buy prizes for another show later in the spring.

The prize winners and those entering the corn were as follows: Grand Champion Yellow corn—Kenneth Smith.

Yellow Corn—First, Howard Heggins; second, Kenneth Rawlings; third, Edward Wessler; fourth, Vincent Davidson.

THE DAY'S EVENTS IN WASHINGTON

Representative W. Bourke Cockran, Democrat, New York, died suddenly.

The Voight filled milk bill was passed by the senate and sent back to the house for adjustment of differences.

Brigadier General Frank T. Hines, took office as Veterans' Bureau Director succeeding Charles R. Forbes, resigned.

The senate rejected the nomination of Walter L. Cohen, negro Republican leader of Louisiana to be customs comptroller at New Orleans.

Senate approval was given \$400,000 appropriation for continuing activities of the federal coal commission.

The house has not yet agreed to the provision.

Chairman LaFollette of the senate oil investigating committee obtained permission to complete its report after adjournment of congress.

The house passed 305 to 36 the composite rural credits bill and conferees immediately began adjustment of differences between the senate and house drafts.

The German embassy declared its government would be unable to guarantee maintenance of peace and order in the Ruhr if the population is provoked to the point of desperation.

A senate investigating committee reported unanimously that charges of the late Senator Watson, Democrat, Georgia that American soldiers were executed in France without trial were unfounded.

Hale Holden, president of the Chicago, Burlington and Quincy laid before the Interstate Commerce commission a plan for consolidation of all the railroads west of Chicago into four systems.

Dr. Axel Leonard Astrom, minister of Finland arranged to begin preliminary conversations with Secretary Mellon on refunding of the Finnish debt of \$8,281,926 and accrued interest of \$1,150,000.

The senate adopted the resolution already passed by the house requesting the president to negotiate agreements with foreign nations looking toward restricting the production of habit forming drugs.

Enactment of legislation permitting restricted immigration of otherwise inadmissible aliens into Hawaii to relieve the labor shortage was recommended by the senate immigration committee which declared American control of the islands was endangered by the Japanese.

President Harding in a letter told Representative Rogers, Republican, Massachusetts he did not favor an Anthracite embargo to relieve the fuel situation in New England and felt that further action to facilitate shipments rested wholly with the interstate commerce commission.

WOODSON TO VOTE ON BOND ISSUE MARCH 10

The directors of the Woodson school district have called an election for Saturday, March 10, when the voters will be asked to decide on the proposition of issuing bonds in the sum of \$15,000 for the erection of a school building.

A public meeting was held at Woodson a week ago at which a majority of those present seemed in favor of the erection of a three room school building. The directors, Dr. R. R. Jones, J. T. Self and L. A. Fitzsimmons, called this meeting for the purpose of learning the preference of the majority as to the type of building to be constructed.

It is hoped that the voters will turn out in large numbers on election day and authorize the issuance of the bonds. School sessions have been held in the Cotton school building since the former school building was destroyed by fire a number of weeks ago.

FOR THE MAN WHO CARES

Baking Powder— that's the big thing in successful baking

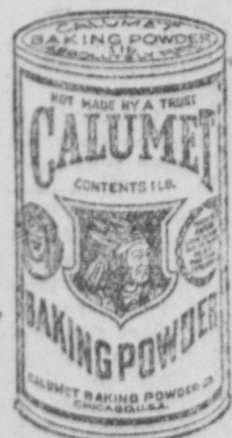

It determines failure or success in baking, more than any other ingredient.

If you do not always have satisfactory bakings, change to Calumet for just one trial.

It is pure: containing only such ingredients as have been officially approved by U. S. Food Authorities.

Within the Calumet factories—the largest and most sanitary on earth—hundreds of skilled workers clad in white are busily engaged in producing the baking powder that is used by millions. Human hands never touch it. Its sale is 2½ times as much as that of any other brand. Pure in the making—pure in the baking.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

Chandlerville, Waverly and Bluffs were the winners in the opening games of the district basketball tournament in David Prince gymnasium Thursday night. The tournament opened with an overflow crowd despite the fact that the local tossers were not scheduled to play last night. There was a riot of color and plenty of enthusiasm to mark the opening of the tournament. All of the teams playing last night had a good bunch of rooters to back them up and the Jacksonville high rooters distributed their cheers impartially giving all of the teams a yell. Principal Kaiser was in charge of the arrangements and the large crowd was handled in excellent shape by his corps of assistants. There was no confusion whatever in seating the spectators and the games started promptly and were run off without any waste of time. C. E. Brockman is again on the job for his co-worker. His work as an official. It would not seem like a tournament without "Brock" and his work last night was as usual, first class. This year Brockman has Jacoby of Al-

Chandlerville-Versailles. Chandlerville and Versailles tied at the end of the 1923 tournament. On form and past records Chandlerville looked to be an easy winner. However, the game proved to be one of the best of the evening. Versailles developed an offense in the first part of the game that surprised Chandlerville. At the end of the quarter the score was a tie at 4 all. At the half the count was still knotted at 12 all. However, in the second half Versailles began to tire as her men were not as good physical condition as the Chandlerville boys. Chandlerville started to pull away in the third quarter and held her lead until the final gun. Versailles was game but all in, and unable to stand the pace set by the winners.

Waverly-Pleasant Hill. Waverly tackled Pleasant Hill in the second game of the evening. For a time Pleasant Hill held Waverly even. At the quarter the score was 6 to 5 in favor of Pleasant Hill.

This, however, was not because of superior playing on the part of Pleasant Hill but because Waverly was having hard luck at the baskets. Many of Waverly's shots rolled all around the hoop and failed to drop in. In fact it was that way all evening for Waverly except in the last half when luck favored them somewhat.

In the second half Waverly began to whip up and took the lead and held it until the finish. Had Waverly had any luck in the first half the score would have been much larger. It must be said for Pleasant Hill that they have a good looking squad and when it is considered that it is a small school it made an excellent showing. If many of the men are back next year they should be heard from in 1924.

Bluffs-Chapin. Bluffs and Chapin hooked up in the last game of the evening. These teams are great rivals but

GENARO GETS HAIR LINE DECISION

Takes Title from Villa in Fifteen Rounds—Crowd not Satisfied

NEW YORK, March 1.—The American flyweight boxing championship title returned to its native shores tonight in historic Madison Square Garden where a capacity crowd saw Frankie Genaro take it from Pancho Villa the Filipino who won it from Johnny Buff in Brooklyn last summer. The decision was of the hair line variety. Newspaper critics at the ringside were divided in their opinion of the justice of the decision. Those who favored it were not enthusiastic and those against were bitter in their denunciation.

For one of the few times since boxing bouts have been permitted under recent legislation the crowd became demonstrative to an extent that worried the police and squads of bluecoats had difficulty in clearing the aisles. It was evident when the men entered the ring that Genaro's friends were in the majority and they booed Villa when he was escorted to his dressing room.

For two thirds of the way the fight was not of championship caliber and the fans whom Villa always showed an untiring aggressiveness were surprised when he chose a strategy of defense. For ten rounds the bout bordered on sloth but in the last five the mixing was so furious that the spectators were in almost constant uproar. Villa seemed the more aggressive and his punches seemed as steaming as his challenger's but he was warned more often than the winner for objectionable tactics and once or twice the crowd booed him. The last round probably gave Genaro the title. Twice he hit and caught the Filipino squarely on the point of the jaw and the champion's knees sagged. But Pancho came back and after a clinch was in a furious exchange when the bell rang.

ANSWER FILED IN ACCOUNTING CASES

(By The Associated Press)

SPRINGFIELD, Ill., March 1.—An answer in the cases against Governor Len Small, Lieutenant Governor Sterling and their bondsmen for an accounting of state monies in their hands while the two officials occupied the office of state treasurer was filed in circuit court here today by Millard F. Dunlap, bondsman for Governor Small, and Otto F. Buffe, and Allison Thomason, bondsman for Lieutenant Governor Sterling.

The answer states that the bondsmen had no knowledge of the alleged conspiracy on the part of Small and Sterling and other defendants to use state funds for their own advantage, and have no knowledge of any connivance to defraud the state of its "rightful profits."

Attorneys Thompson and Thompson of Jacksonville, filed the answer as representatives of the bondsmen who were made party defendants.

VOIGHT MILK BILL PASSED BY SENATE

(By The Associated Press)

WASHINGTON, March 1.—The Voight milk bill was passed late by the senate and sent to the house for adjustment of minor differences.

The bill would prohibit interstate shipment of condensed or evaporated milk made from skimmed milk and oil substitutes for butter fat such as cotton seed and coconut oil.

Dairy organizations supported by the farm bloc in both senate and house were behind the measure which was passed by the house last May after introduction by Representative Voight, Republican, Wisconsin.

Manufacturers of products combining skimmed milk with vegetable fats opposed it, contending that their out put was not harmful to health.

There was no record vote by the senate the bill, being passed by unanimous consent.

PRISONER ESCAPES FROM COUNTY JAIL

John Bartholow Unlocked Door of Ground Floor Cell—Evidently Received Aid From Outside.

John Bartholow, who is accused of the theft of livestock on the Laurie farm northeast of the city, escaped from the county jail some time during Wednesday night. Bartholow was held in jail awaiting the May term of court. He has been kept in a cell on the first floor of the jail building.

He was in his cell at 11:15 Wednesday night and at 1 o'clock Thursday morning when the turnkey made a trip of inspection he found Bartholow's cell empty but with the door locked.

A window on the south side of the cell is quite near the street and Sheriff T. O. Wright said yesterday he is very sure that some friend of Bartholow's had passed in a key of some special design which made it possible for him to unlock the cell door and then make his way thru a door on the east side of the building and to the back yard. The sheriff had the only key to the cell in his pocket at the time that the escape was made.

Sheriff Wright has a pretty good line on Bartholow's haunts and is confident that he will have him in custody again before many days.

MARRIAGE AWAITING CALIFORNIA REPORT

Los Angeles, Calif., March 1.—The marriage of Rudolph Valentino, motion picture actor to Winifred Hudnut, dancer will not take place in Chicago next Monday, if as reported the ceremony waits upon confirmation from Los Angeles that an interlocutory decree of divorce granted Valentino here last year, has been final.

The interlocutory decree obtained by the screen star from Jean Acker, his first wife, was signed March 9, 1922, which means, according to California law that neither party to the action may re-marry legally until March 10, 1923. Hence, attorneys stated today they awaited confirmation is not likely to reach Chicago before that date.

Strawn Talks About Dort

There's economy, also satisfaction, in giving your car the once-over at regular intervals, and once a week is not too often.

While engineering advances and sturdy construction have developed the modern motor car to a point where it will permit of considerable neglect, there is a limit to all things and it will prove costly to cross the dead line on the question of service.

The motorist should consider his car an investment and it is a matter of good business to take care of it the same as he does his other possessions. When an automobile is allowed to run-down-at-the-heel, the owner finds his repair bills mounting in an alarming manner.

To the average motorist some of the complicated motor cars present an unpleasant task when any service work needs to be done, but the Dort is different. Access-

ibility of parts was one of the first principles built into the Dort Four and it has been more prominently continued in the new Dort Six so that the owner has more fun than hard work in keeping his Dort fit and ready.

Another feature that every motorist should consider in servicing his car is that the use of so-called "pirate-parts" shortens the life of a car and causes inconvenience and worry. Dort parts are manufactured for all models of Dort cars and under no circumstances should any other parts be used.

Quite a saving can be made and much satisfaction gained from regular inspection on the part of owner and the use of legitimate parts. There is no other short continuous motoring pleasure, and that is what every owner is entitled to, whether his car is used for business or pleasure.

Queen Incubators Built to Hatch Without Trouble

QUEEN Incubators are famous for their large hatches of strong, healthy chicks that grow.

The Queen is accurately regulated, taking care of a temperature variation of 70 degrees without danger. It is built of genuine Redwood—very scarce in these days of imitation and substitution. Redwood does not absorb the odor from hatching eggs. Cheaper woods and paste-board lining in iron and tin machines retain the odors to weaken the hatching chicks.

The Queen has double walls of California Redwood, with insulation between. The Queen hot water system prevents the eggs from drying out and provides ample moisture for the hatching chick. The Queen will come nearer to running itself without any more than ordinary attention than any other incubator made.

Queen Brooders

The Queen Colony Brooder is a new and improved design of brooder stove.

As will be seen from the illustration, the check and draft lids are cast together and operated together. Thus, when the fire is too hot, the wafer expands and closes the draft and opens the check, both at the same time. When it is too cool, the wafer contracts and closes the check and opens the draft. This keeps an even heat all the time, night and day, in cold weather or warm, and does it automatically. You don't have to pay any attention to it whatsoever. Just set the regulator for the proper temperature at the start of the season—it will do the rest.

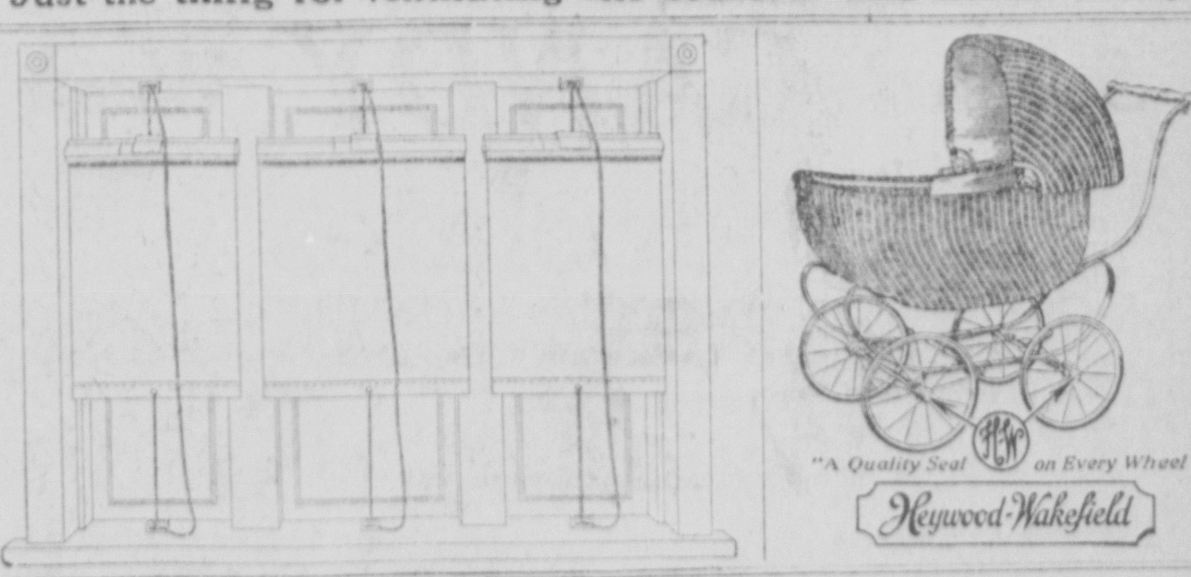

The Queen stove burns any kind of fuel with equally satisfactory results.

TO DEMAND EXTREME PENALTY FOR BRADEN

Cass County Authorities Will Ask Death Sentence for Man Who Committed Double Murder at Beardstown—Preliminary Trial Next Monday.

The state's attorney of Cass county will ask the death penalty for Orin Neal E. Braden of Beardstown, who is confined in the Sangamon county jail awaiting trial for the double murder of Clifford C. Garm and Jesse Lowe, Jr., two prominent citizens of Beardstown. Braden will be arraigned before the Beardstown city court next Monday morning to face charges pending against him in two indictments for murder.

"I do not seek vengeance" is the recent statement of E. H. Garm, father of one of the murdered men, "but I do expect justice—and justice demands that, in the interest of the protection of society, this man pay with the extreme penalty for his heinous crime."

Beardstown citizens, it appears, are eager to see justice done in the coming trial, and it is urged in that community that there be no further delay in bringing Braden to punishment.

MRS. EVALYN SEIGLE DIES FROM POISON

Woman Who Took Deadly Poison Dies Thursday—Inquiry Brings Out No Apparent Cause For Self Destruction.

Mrs. Evalyn C. Seigle, wife of Layton D. Seigle, died Thursday morning at Passavant hospital, as the result of drinking a quantity of bichloride of mercury on the morning of Feb. 22. Mrs. Seigle took the poison at the home of a relative, 218 1-2 East Court street and was later taken to the home of her mother-in-law, Mrs. Myrtle Hopper, 340 East Lafayette avenue.

When it was found that her condition was serious she was removed to Passavant hospital, where she was attended by Dr. W. P. Duncan. Her condition grew worse as the poison did its work, and death came Thursday morning.

Evidence submitted Thursday afternoon at an inquest held by Coroner Rose at the Gillham Funeral Home, showed that there was no apparent reason for Mrs. Seigle's suicide. She and her husband came here a few days ago from Peoria, on account of the death of a relative. On the morning of Feb. 22, Mrs. Seigle asked her husband for money to purchase stationery. He gave her fifty cents, with which she evidently bought the bichloride of mercury.

Layton Seigle testified that his wife was apparently in good health, and at no time intimated that she intended to take her own life. She is a native of Detroit, where she has an aged mother living. Witnesses at the inquest were Layton D. Seigle, husband of the deceased, and his mother, Mrs. Myrtle Hopper.

The coroner's jury consisted of John S. Sheppard, foreman; R. L. Goodrick, J. W. Jackson, Richard Vasey, John W. Lazenby, and B. F. Lane, clerk. The verdict was to the effect that Mrs. Seigle came to her death by drinking a quantity of bichloride of mercury with suicidal intent, while in a state of temporary aberration of the mind.

ST. LAWRENCE DEEP WATERWAY GREATEST OF PROPOSED WORKS

Claim Made in Address Before Waterway Association Thursday

(By The Associated Press)

MANITOWOC, Mich., March 1.—The Great Lakes-St. Lawrence deep waterway project was described as the most important transportation project of this generation by Frank Kerwin, managing director of the Green Bay association of commerce in an address today before the waterway conference here.

He suggested two plans which he said would aid transportation in the middle west one to call off the alleged statesmen and give the railroads a fighting chance and the other to develop inland waterways with a view to supplementing and not supplanting the railroads. He expressed doubt whether barge canals could be constructed and operated successfully declaring deep waterway a better means of meeting transportation difficulties. He urged a "sane use of every transportation facility available declaring that the Great Lakes route offered the most perfect co-ordination of rail and waterway transportation and an ideal condition in that carriers are provided with loads in both directions. He said regulation of the Wisconsin railroad commission and bodies which permit shipment of coal by rail into the northwest should be changed so far as they apply to shipments of coal from the docks inland.

FRANKLIN RESIDENT PASSED AWAY HERE

Death of Mrs. Irving Rees Came Thursday Night After Brief Illness—Arrangements for Funeral not Complete.

Mrs. Irving Rees of Franklin passed away Thursday night at 9:45 o'clock at Our Saviour's hospital, where she had been a patient since Wednesday afternoon. The final illness of the deceased was very brief, as it was Sunday night when she was stricken. Her condition was not at first alarming, but she grew rapidly worse and was brought to the hospital here, where her death came as indicated above.

The deceased was a daughter of Mr. and Mrs. Wesley Tannahill of Franklin precinct and had spent her entire life in that neighborhood. Her marriage to Irving Rees took place about four years ago.

Surviving are the husband and parents and several brothers and sisters.

The arrangements for the funeral have not yet been completed.

FRED HIGH POPULAR SPEAKER AT BANQUET

Eminent Business Expert Delights Audience of 200 Kiwanians and Guests Thursday Evening.

More than two hundred Kiwanians and their guests attended the annual banquet and open meeting of the club at Central Christian church last night. Great enthusiasm prevailed, especially during the address of Fred High. This was one of the most interesting and witty lectures delivered in this city for sometime. High is a rapid and sparkling speaker, keeping his audience in a whirlwind of laughter and at the same time giving them some of the soundest and most wholesome ideas.

"Making Service Pay" was the title of Mr. High's address. He told how for years he has practiced the golden rule of trying to help the other fellow, and how he has seen others make it pay. He said that when Jesus Christ told his disciples that he who would be greatest among them must be the servant of all, he laid down a rule that should be followed six days of the week, as well as on Sunday.

In a pleasing and humorous manner the speaker paid his respects to the many modern fads and styles. "I do not think there is a fad going which has not gotten into the Chicago public school system. If there is, there is only two reasons why it didn't get there; it was either that the fad died before the school board could hold a meeting, or that there were so many of the board members in jail that they could not get a quorum. We understand that Abe Lincoln split rails with an axe. Nowadays the hardware store sells several hundred varieties of axes, but there are very few rail splitters. We must get back to fundamentals.

"It is a great thing for a man to be able to say that he is going to work. One of the great problems after the civil war was to get people back to work, and the same problem confronted us at the close of the world war. At the last census it was found that fifty-five counties in Illinois had lost population. A high official travelled thru three states, and returned with the report that most of the farmers were flat broke.

Many Radical Papers.

"There were 287 radical papers started in this country last year. Surely they must be feeding on something, or they could not live. When organizations which stir up prejudice and hatred get started in a community, the mail order houses reap the profit and the local merchants suffer. In Russia they have wiped out the middle class, and we must learn some lessons of helpfulness and try to overcome the prejudice and wrong thinking which is abroad in our own country. Two carloads of mail order catalogues were sent from Chicago into the northwestern states. In everyone of them was destructive propaganda against the local merchant. The government had branded the business man as a profiteer and a grafter.

"However, it is by means of such organizations as the one assembled here tonight that we can solve the problem. When men can get together and forget their differences and prejudices, when they can take the doctrines of service and kindness to the other fellow, we can meet the situation."

The program of the evening was preceded by a splendid four course banquet, served by the ladies of the Christian church. Brown's orchestra furnished lively music during the supper, and the Kiwanians and their guests sang many rousing songs between courses. At the close of the banquet, the president of the club, C. Y. Rowe, called the assembly to order and gave a short explanation of the principles and work of the Kiwanis club. He then introduced F. E. Farrell, chairman of the program committee, who presided during the program.

For the first number Mrs. Barr Brown and Mrs. A. R. Gregory sang "Calm as the Night," and "Memories," and for an encore, "I Love You." The Elks' Male quartet was then introduced and made a great hit with the audience. For their regular number, they sang "In Absence" and "Keep on a Boilin'." and for encores, "When Uncle Joe Plays a Rag on His Old Banjo," and "Drink to Me Only With Thine Eyes." The accompanist for the quartet was Willard Wessner. Members of the Kiwanis program committee are: F. E. Farrell, chairman; and Garm Norbury, Charles Goodale, T. W. Beadle and Ed Tomlinson.

TELEPHONE PATRONS DRAFT PETITION

Will Present It at Hearing Before Illinois Commerce Commission.

A committee representing the patrons of the Home Telephone company of Arenzville met at Arenzville Wednesday afternoon and formally drafted a petition for a hearing before the Illinois state commerce commission. The committee includes Harry Ogle, John Kershaw, Frank Weber, Len Burrus, C. E. Thompson and C. A. Beard, Farma advisors R. W. Dickinson of Cass county and George B. Kendall of Morgan county were also present at this meeting.

The complaint as embodied in the petition which was drawn up alleges unjust raise in telephone rates on the Arenzville exchange and also charges the levying of tolls on calls between Virginia, Arenzville, Chapin and Mercedonia. It is also charged the discontinuance of service thru the Bruening switch, failure to give out livestock reports as promised in the telephone directory and the maintaining of the lines in such condition as not to give continuous service.

The committee agreed to hold this petition until Friday noon, March 2, in order to give the manager a chance to make some adjustments.

MORGAN COUNTY HEALTH

The subject of "Modern Health Ideals," to be presented at the forum of the Congregational church on next Sunday evening, by Dr. Allen Craig, assistant director of the American College of Surgeons, naturally leads one to reflect on what has happened in Morgan county in recent years.

Comparatively speaking, it is only a few years since the Anti-Tuberculosis league was formed in this county and inaugurated its campaign against the "great white plague." Since then we have had the organized and intensive work of the social service league; the county has placed its poor relief in the hands of a trained social worker; the Red Cross has carried out an intensive public health campaign; the public schools employ two trained nurses to look after the health of our public school children; the county has built a sanitarium with a trained worker in charge; the county has a full time health officer with a corps of nurses and finally both hospitals have increased their capacity, expanded their facilities and become "standardized."

Jacksonville certainly has given evidence of ideals in health matters and will be interested in the ideals which Dr. Craig will present from a wide experience in both the United States and Canada.

Owing to the growing popularity of the Morgan county fair among the hog breeders of Morgan county and the surrounding counties it is expected that the number of hogs entered in this year's fair will be double that of previous years. The fair directors have therefore secured W. J. Carmichael, member of the Swine Growers' association of ePoria, and secretary of the St. Louis Livestock exchange, to officiate as judge in this department of the fair.

Mr. Carmichael is considered a most competent general judge of swine and has officiated in this capacity at several of the biggest state fairs in the country. He was also a judge in this department in the recent world's fair at San Francisco. If the Morgan county fair grows in all departments in comparison to the hog department we are going to have one of the finest fairs in the country this year.

PASSAVANT AID MEETS.

The Passavant Hospital Aid society met yesterday at the hospital for an all day session. There was a good attendance and the time was spent in sewing on linens for the hospital. Luncheon was served at noon and the officers and nurses of the training school were the guests of the society. Mrs. William Floreth, the president of the aid, was in charge of the meeting and acted as general chairman for the luncheon.

INTERESTING DATA ABOUT CARS IN STATE

More Densely Distributed in Rich Agricultural Districts Than in Cities—Figures Given for Morgan County.

Illinois, at the close of 1922, had one motor vehicle for each 8.6 inhabitants, according to the Liberty Central Trust company, in a statement issued by its statistical department. This is a somewhat favorable showing for the United States as a whole. The figures allow conservatively for population changes since 1920 and are based on data received from the office of the secretary of state.

Automobiles are always more densely distributed in rich agricultural districts than in large cities, so it is no surprise to find that in Cook county, including Chicago, the population per car is 14.1, while in the remainder of the state it is only 6.3.

Of the 102 counties in Illinois, there are 100 having a population of less than 20 per motor vehicle; 80 with less than 10, 32 with less than 5, and 11 with less than 4 persons per car registered. It may be said fairly that nearly one-third of the counties have an average of one automobile per family.

In Morgan county the population per motor vehicle is approximately 6.7.

Automobile "density" is greatest in the northern part of the state, and least in the extreme south. This is not due necessarily to difference in prosperity and wealth. In the south there is some rough hilly country, always an obstacle to the widest use of cars. In addition, there is a large mining population, constituting a relatively less favorable market for motor vehicles. It should be emphasized that automobiles are most common of all among farmers.

In the northern and central parts of the state, the population per car is less than seven, except in Cook county, the adjoining counties of Lake, Dupage, and Will, and in Rock Island county. In the south, "Egypt" the ratio is, with one or two exceptions, 7 or more, usually 10 or more in the extreme lower counties.

The eleven leading counties, in which the statement suggests a population of between three and four per car, are DeKalb, Ford, Iroquois, Kendall, Lee, Livingston, Mercer, Ogle, Piatt, Stark, and Woodford. All are in the northern half, and many are classed by the census as entirely "rural" in population.

GREAT CONCERT TO BE GIVEN SOON

Music lovers of Jacksonville and Morgan county have another real treat in store for them in the Illinois College Conservatory concert which is being given Thursday evening, March 8, at the high school auditorium. The chorus of 125 voices has been rehearsing for this concert since September under the expert leadership of Arnold Lovejoy, whose recent success in handling and directing the Elks' chorus has made his name familiar to all the residents of Jacksonville.

The conservatory orchestra under Mr. Kritch will have a large part in the success of the concert.

After thorough investigation State's Attorney Carl E. Robinson has dismissed the case against J. A. Devlin.

INCOME TAX FACTS

No. 26.

Where additional time for filing an income tax return is required because of illness, or absence of the taxpayer from home, the collector of internal revenue for the district in which the taxpayer lives, or has his principal place of business, may grant, upon application before the return is due—on or before March 15, 1923—an extension of time not to exceed 30 days. If, before the end of the 30 days' extension, an accurate return can not be made, an appeal for a further extension must be made to the Commissioner of Internal Revenue, Washington, D. C., with a full recital of the causes for the delay. The commissioner, on presentation of a reasonable cause, may grant an extension not exceeding six months, except in the case of taxpayers who are abroad.

As a condition for granting an extension of time for filing a return, a collector of internal revenue may require the submission of a tentative return and the payment of one-fourth of the estimated amount of the tax. A tentative return should be made on the usual return form marked "tentative" and should contain a sworn statement of the estimated amount of the tax. No other data need be given.

The Commissioner of Internal Revenue will not grant an additional extension without a clear showing that a complete return can not be made within the 30-day period. Failure to file a complete return within the period of the extension granted by the commissioner or collector subjects the taxpayer to the penalties for delinquency.

FARM BUREAU NOTES

F. M. Higgins of Seneca, Ill., representing the Illinois Agricultural association, arrived in the city yesterday to take charge of the farm bureau membership campaign in Morgan county. He has just completed a similar campaign in Pike county. Mr. Higgins will attend the pruning demonstrations to be conducted today at the farms of C. S. Black and C. R. Gibson, by W. F. Brock of the college of agriculture of the University of Illinois. He will meet with the members of the executive committee of the farm bureau at Saturday to further explain to them the details of the membership campaign.

John M. Raiser of Meredosia was a caller at the farm bureau offices on Thursday. He is interested in finding some kind of fertilizer which may be used to grow sweet potatoes in sandy soil.

Miss Beulah Tice has been engaged to assist in the farm bureau offices in the mornings during the coming membership drive.

MEREDOSIA

Relatives here have received the sad news of the death of Mrs. Mollie Turnham which occurred at the home of her son, Horace in Pittsburgh, Pa., Monday night. Mrs. Turnham went out to her son's to spend the winter and was expecting to return to her home here about the first of March.

She had been a resident of Meredosia for more than fifty years. She leaves to mourn her, one son, Horace, of Pittsburgh, one step-son, George, of this place, one niece, Mrs. Louise Weeks, who is at present with her son in New Orleans. Mrs. Turnham was a charter member of Trinity chapter No. 636 O. E. S., and was one who was loved and respected by all who knew her.

The remains will be sent here for burial but nothing definite as to when they will arrive. No funeral arrangements have yet been made.

J. G. Berger and Rev. G. T. Wetzel of Jacksonville were business callers here Wednesday. They were accompanied by Mrs. George Unland and Mrs. M. E. Vannice, who have been visiting with Mr. and Mrs. Berger.

Elmer Harshman and P. S. Hodge motored to Jacksonville Wednesday.

W. F. Todd motored down from Jacksonville Wednesday.

L. H. Yost and Albert Peters attended a sale near Concord Tuesday.

E. F. Geiss was a Quincy visitor Monday.

The Domestic Science class of M. C. H. S., entertained at a 6 o'clock dinner Tuesday evening, at the high school building. The high school board of directors and wives and Prof. Stark were present.

MURRAYVILLE

Charles Blakeman of Springfield spent the week end with his family here.

James Solomon and family are enjoying a visit from the former's mother of Hettick, Ill.

Mrs. M. Jennings and daughter Alma were shopping in Springfield recently.

Mr. and Mrs. C. E. Black and Miss Jane Wright and Mr. Murgatroyd of Jacksonville attended the entertainment at the high school Tuesday night.

Mr. and Mrs. G. A. Simpkins and Mr. and Mrs. George Lewis of Buckhorn were the guests of home folks Sunday.

Mr. and Mrs. Harry Stringer attended the sale of F. M. Masters near Lynville Monday.

The pupils of the high school gave an interesting program Tuesday night. After the entertainment about forty boxes were sold which netted a neat sum. The proceeds of the affair were for the benefit of the basket ball team.

George P. Jones has moved to a house in Oak Hill neighborhood and will assist Vernon Baker in farm work the coming season.

WESTMINSTER NOTES

The life story of "Johnny Ring and the Captain's Sword" will be concluded next Sunday evening. Dr. Smith will preach upon "The Sacrifice that Has Saving Power."

—After the reground shaft has been relaid in main bearings the connecting rod bearings are fitted to the crank pins.
—The accuracy of these two bearing operations determine the endurance the motor will have. The connecting rods with pistons assembled must now be lined up.
—This requires a jig tool so constructed that when a mandrel is clamped in the crank pin bearing the piston can be brought up to a face plate exactly at right angles to center of mandrel. This is very important and upon its accuracy depends the durability of the entire engine job.
To make a long story short—

A block grinding job means—A remanufactured motor. This work cannot be successfully undertaken by amateurs with no machine tool equipment or previous experience.

FEW TRANSFERS PUT ON RECORD MARCH 1ST

Tendency Is to Close Transactions Now On Earlier Dates—Not An Active Real Estate Year.

The records in the office of F. E. Wamaker, circuit clerk and recorded did not indicate as much activity yesterday as has been often true on the first day of March. This was accounted for in part by the fact that there has been a growing tendency in recent years to complete farm transfers on dates prior to March 1, in order to avoid a congestion of business on that date.

Another factor has been that the number of sales of farm property during recent months has not been as large as was true one year ago nor two years ago.

The following transfers were recorded yesterday:

A. W. Petefish to H. W. Petefish, pt. south half northwest quarter, 3-16-10, \$1.

W. R. Johnson to Ada Riemann pt. lot 2, Dunlap's west addition to Jacksonville, \$1.

Eva Seymour to H. H. Wankel, north half southeast quarter 21-13-10, \$1.

W. H. Lindsay to Aaron Petefish, pt. north half southwest quarter 29-16-11, \$1.

Emma Crawford to William Shible, pt. lot 97 old plat, Jacksonville, \$1.

J. T. Gaddis by master to Edgar Anderson, east half southwest quarter, 21-16-11, \$16,250.

Minnie Spreen to Minnie Zachary, lots 5 and 6, Kaiser's addition to Alexander, \$1.

C. A. Johnson et al to Frank Jokisch, west half southeast quarter 14-15-11, \$16,080.

Olive Gaddis to Edgar Anderson, quit claim deed east half southeast quarter 21-16-11, \$1.

C. W. Spaenhower to Ella Sims, pt. southeast quarter southwest quarter 2-13-18, \$3,750.

W. H. Muehlhausen to William Bultcher, pt. lots 6 and 7, Chambers second addition to Jacksonville, \$1.

Veterans of Foreign War News Notes

WASHINGTON, D. C.—Success has met the efforts of the Veterans of Foreign Wars in bringing about the amendment in the Army Appropriation Bill which has for its purpose the amending of Section No. 2 of the Legislative, Executive and Judicial Appropriation Act of 1894, so that retired enlisted men of the Army, Navy, Marine Corps and Coast Guard may be permitted to hold an office under Civil Service appointment of \$2,500 or more per annum. The Veterans of Foreign Wars is the only organization that has been interested in taking care of these retired enlisted men, and the bill was originally introduced in the House of Representatives by Congressman Kearns and known as HR 13434, while a concurrent bill was introduced in the Senate by Senator Wadsworth known as S. 4315.

This provision will ease the minds of men who have served their country in time of need during wars and completed their enlistment of thirty years service and who are still serving the Government.

The provision will also be made retroactive so as to prevent any reduction in back salary accrued.

NEW YORK, N. Y.—The National Americanization Committee of the Veterans Foreign Wars report that a general interest has been created throughout the country in the Essay contests for school children; already a great many Essays have been received by the committee. Various Posts from nearly every section also report local committees actively engaged in preparing patriotic exercises for V. F. W. Americanization Day, April 27th. The National Committee will meet in New York March 13th.

WASHINGTON, D. C.—The District of Columbia Department of the Veterans of Foreign Wars are out in real earnest to combat the Red propaganda existing in all parts of the country and are beginning to concentrate their efforts in Washington.

The overseas men appreciate that in recent years there has been manifestations of a sinister and malicious influence and propaganda which seems to be fostered and encouraged by thousands of dollars being poured into this country by Soviet Russia to keep their agents busy in spreading this propaganda with the sole purpose of undermining the Government of the United States and the ideals for which this nation has always stood. Every member in the six Posts in the District has pledged their support to the Department Commander, Brigadier-General Anton Stephan, to form themselves into one large Committee for the purpose of combatting these influences and activities and to report to the Department head any activities of radicals, communists, anarchists or reds that come to their attention. A number of these cases have been disposed of thru the efforts of the local V. F. W., by the United States Department of Justice.

The Veterans of Foreign Wars in the Nation's Capitol intend to carry on their slogan of "One Flag, One Country, One Language."

BIGGEST PEP MEETING OF ALL TIME HELD

What is probably the biggest and peppiest pep meeting ever held at old J. H. S. was staged yesterday afternoon following an address by Fred High, editor of "The Billboard." All of the 735 students of the high school trekked to the David Prince Gymnasium. Then all of the numerous David Prince children came trooping in. Then came the pep. The school team appeared clad in the solid red trunk and shirt of the school. While the players made basket after basket, the students yelled until they were hoarse.

BOY SCOUT MEETING

Richard McCarty, just returned from a four year enlistment in the U. S. Navy, spoke Wednesday night to a joint meeting of Boy Scout troop 2 and 5. About forty boys were present. McCarty was a charter member of the troop and so his interesting statements of life on Uncle Sam's big ships was doubly interesting to the boys. He also spoke of the lands that he had seen on his travels, among which were the island possessions of the United States.

January Was Another 100,000 Month for Ford Car Sales

The total cars sold during January was 100,118 according to advices just received from the Ford Motor Company at Detroit, making the tenth consecutive month in which sales have run over the 100,000 mark.

And while this means that in the last ten months more than one million Ford cars have been sold, the really remarkable feature is that four of these months were fall and winter months during which the average expectation of sales is only about sixty per cent of the spring and summer business.

But since April last, the first month when sales topped the 100,000 line, there has been no slackening and every month since has brought in sales totalling more than 100,000, something unprecedented in the automobile world.

Several things have contributed to this unusual sales record, principal of which is the fact that since last October Ford prices have been at the lowest level ever reached in the history of the company. Organized

sales drives have been most effectively carried on, resulting in an awakening of the motoring public to the fact that the Ford is as dependable and practical in winter as it is in summer.

Another noticeable factor is that a man of moderate means, ambitious to own an automobile and who a few months ago looked to much higher priced cars to satisfy his desire, is rapidly convincing himself that he can better afford a Ford car which calls for less investment, less upkeep expense and has the greatest service facilities. New improvements and refinements in all Ford cars, both open and enclosed models, have contributed much in this respect.

Production at the Ford plant for 1923 will be established at 6000 cars and trucks a day, and this output will be reached about April 1st. With the first month in the year starting off with sales in excess of 100,000, indications are that absorption is going to run close to this high production schedule.
